Better. Stronger. Healthier. At Vintage, this is our focus. Every day, caring staff, active members, dedicated volunteers and loyal donors support and celebrate one another as we transform the experience of aging in our community. Every day, Vintage seniors make better choices, grow stronger and become healthier. As an organization, Vintage is firmly committed to its mission: To improve and influence the experience of aging in our community.

Getting Better With Age. With 44 years of mission-driven service to the community, Vintage continues to flourish. Fiscal year 2016-2017 marked an important organizational milestone as the second full year as an affiliate of Familylinks. The relationship with Familylinks has offered many important advantages and efficiencies, as the parent company provides support in human resources, payroll, accounting, information technologies, development and facility management. It is worth noting that all Vintage services and all Vintage staff remained intact under the new organizational structure.

Vintage is one of only two centers in Western Pennsylvania to achieve accreditation from the National Council on Aging/National Institute of Senior Centers. This distinction designates Vintage as a national center of excellence. Vintage is a licensed provider of the evidence-based Better Choices, Better Health (BCBH) Program, providing information and workshops throughout Allegheny County to adults with chronic conditions.
